MIS E-Learning Video Series

During the series you will learn about every step of aligning your program practice with your performance goals. This includes the planning stages, the steps necessary to ensure that data is accurately collected, entered, and checked, information on how to build an ad-hoc report, how to enter MIS data, and more.

MIS E-Learning Series: Using the MIS Reports for Better Data Management

This series provides an introduction to the MIS Ad Hoc report builder.

Part 1: Participant Services and Demographics, Participant Status, and Outcomes

Part 2: Literacy and Numeracy, Placement History, Participant Recidivism

MIS E-Learning Series: How to Enter MIS Data

This 11-video series provides an introductory training to all the required steps of MIS reporting.
