

DOL YouthBuild Manuals

[Counseling and Case Management at a YouthBuild Program](#)

This handbook provides help planning and implementing the counseling and case management components of a YouthBuild program. It includes in-depth information on issues such as substance abuse, sexual harassment, and violence or negative behavior.

[Construction Training at a YouthBuild Program](#)

Construction Training is designed to help people run effective YouthBuild programs in their communities by offering practical advice on ways to plan, organize, and implement the construction component of a YouthBuild program. This book is especially useful for program directors, construction managers, and construction trainers.

[Education at a YouthBuild Program](#)

The Education at a YouthBuild Program Manual is designed to help programs develop and implement a comprehensive education component. It provides guidance to program directors, school administrators, education coordinators, and teachers.

[DOL YouthBuild Program Manual](#)

The DOL YouthBuild Program Manual offers advice on how to plan, organize, and implement all of the components of an effective YouthBuild program.

[Data Management Program Manual](#)

The YouthBuild Data Management Program Manual is designed to help programs develop and implement a comprehensive data management component. It provides data management guidance and resources to program directors and administration, data entry clerks, and other YouthBuild program staff.

[Leadership Development at a YouthBuild Program](#)

This handbook is one of a series designed to help people run effective YouthBuild programs in their communities. Leadership Development at a YouthBuild Program offers advice on how to plan, organize, and implement the leadership development component of a YouthBuild program. This book is especially useful for program directors, program managers, and other program staff because it provides specific suggestions for incorporating leadership development into all aspects of the program.

Partnering with Employers

This manual will help your program develop connections to local employers, making it more likely for their graduates to be hired and for the employers to provide valuable input to program staff on the specific knowledge, skills and aptitudes young people need in order to be successful in their initial placements. In turn, YouthBuild staff can integrate this information into the YouthBuild curriculum.

Pathways to Long Term Success

This manual will help your program develop a comprehensive plan for the post-program success of your students. It provides ready-to-use tools and resources so you can provide effective career development for your young people.
