This webinar focused on how YouthBuild programs can sustain and grow by developing self-reliance through social enterprise, earned income business, and pay for success. An overview of these models was presented, as well as examples of how some YouthBuild programs and their respective organizations are developing and/or implementing them.

Peer presenters shared working examples of these sustainability models that don’t rely on government grants, and information on how to develop and implement these models in other YouthBuild programs.

Objectives:

1. Participants gained a general understanding of funding models including social enterprise, earned income business, and pay for success.

2. Participants learned how current YouthBuild programs are utilizing these models, the steps in planning and implementing them, and the successes and challenges associated with their implementation.
