

Executive Summary

Building a Construction Career Pathway

5/5/20

Moderator: Mark Smith

Speaker(s): Rossie Cherry, Joanna James, Brian McMahon

This webinar introduced the key elements of building a comprehensive building and trades career pathway, including structure, implementation, and performance and knowledge standards necessary for short- and long-term success of YouthBuild participants.

Webinar attendees also provided information and resources about additional vehicles for construction education, connecting to construction apprenticeships, and funding opportunities to support sustainability.
